

The physicians, nurses and all the staff at Stamford Health's Bennett Cancer Center would like to provide you with a brief update.

Effective Wednesday, July 8, the Warner Building entrance C (near the hospital cafeteria) will be permanently closed. Please enter through the main entrance to the Bennett Cancer Center, adjacent to the Emergency Department. All Bennett Cancer Center patients are provided with a green parking permit that allows you to park in parking lot F at no charge. (Please note that the permit is only valid in Lot F.) Valet parking will also be available at this location with the permit at no charge. Please remember to bring your green parking permit with you to each appointment.

The Bennett Cancer Center continues to offer a safe environment for patients and staff. Our robust infection prevention plan includes screening staff each day, screening patients, and appointment scheduling that minimizes patient contact in waiting rooms. Additionally, every exam room is thoroughly disinfected between patients, waiting rooms and common areas are cleaned continuously throughout the day, and the Center is professionally cleaned each evening. Finally, masks are worn by all our staff and you will be asked to wear a mask to your appointment as well. In addition, we have continued to temporarily restrict visitors.

We thank you for the trust you have placed in us.
